Inspiration for MetaTrads

MetaTrads is a diversified, dynamic, inclusive and highly autonomous platform for the circulation of ecological values in the metaverse.

MetaTrads DAO is a blockchain ecosystem organization initiated by MetaTrads developers. The early members were a group of NFT enthusiasts in Silicon Valley, however, all MetaTrads DAO members had the right to propose community and development, vote, rights, and governance. Every member can participate in the project development, community operation, and ecological construction and governance of DAO. All major community development issues will be decided by a vote of all DAO members.

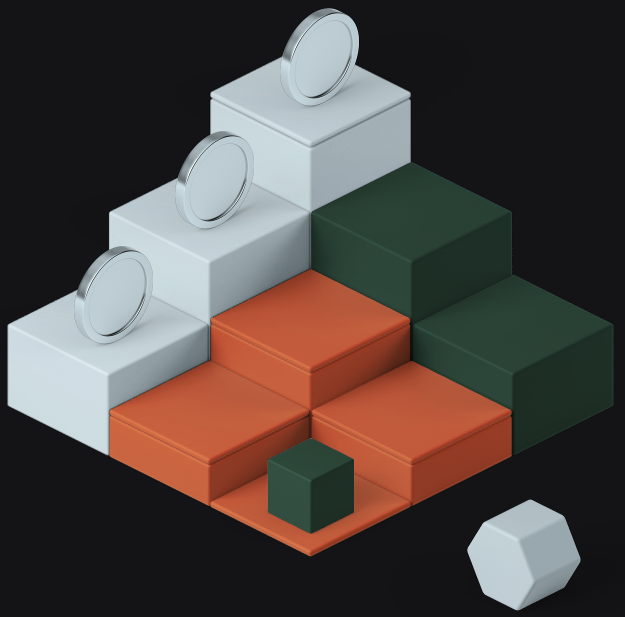
MetaTrads NFT & $MT

A creative project that lead and inspire

Trade to Earn and Mine



Whether you want to trade MetaTrads, NFT cards or invest in $MT, it is important to read the following documents carefully.

This will help you understand not only the relationship between MetaTrads and NFT and $MT, how MetaTrads works, but also what we want to do.

MetaTrads aims to build a community-based NFT asset trading platform with sound underlying technology, convenient circulation mode, personalized ownership, and open and transparent publishing mode. It is also the leading aggregative trading platform in the metaverse ecosystem. Supports multiple asset protocols such as ERC20, 721, and 1155, and MATIC, SOL, BSC, and WAX.

The platform adopts the Turing completeness trading engine, the second scalability engines, more chain assets flow module architecture, satisfy the users to buy, sell, auction NFT assets such as liquidity needs, ensure every metaverse assets property rights transactions, create property agreement, become the largest trading volume, the user carrier gameFi platform ecological circulation.

NFT is at the heart of MetaTrads's trading platform. You can acquire your favorite NFT digital collection by trading securely and efficiently on MetaTrads. You can also trade your NFT card collection and share it with others at a profit.

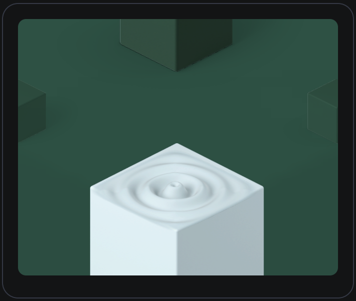
$MT is MetaTrads' platform equity token. As MetaTrads' platform equity token, $MT is related to the platform's revenue and represents the market's expectations for the future development of the platform.

MetaTrads is the product base, NFT is the core business, and $MT represents the equity. MetaTrads are governed through DAOs (decentralized autonomous organizations) where everyone has a vote and decides how the world is run. All this will change the model of the NFT industry.

There are good reasons to believe that the NFT industry is exploding. The vision that MetaTrads wants. However, the multi-dimensional and innovative NFT transaction is only the starting point and foundation of MetaTrads, on which the future value of the platform, NFT cards and equity token $MT will be extended to digital collections financial derivatives (NFT Fi), as well as the NFT asset ecology of GameFi and metaverse.

Please Note

1. We want the first MetaTrads holders to understand and appreciate. MetaTrads are adventurers, pioneers and communicators, not speculators. We hope MetaTrads will become a truly community-driven project.



2. Administrators will never initiate a private chat with you. Please report immediately if anyone impersonates an officer and contact you directly. Under no circumstances should you give anyone your private key or mnemonic. If you are asked for it, report it immediately.
